Walnut
Health Club

health OS for Software Engineers
navigating a silent epidemic

Walnut connects software engineers; with health coaches and diagnostics through a single intelligent platform.

Engineers navigate lifestyle issues, prevent & monitor 1000+ diseases, reverse chronic risks & build longevity,

while coaches grow online income & manage clients efficiently through a data-driven dashboard

WHY & HOW ?

27Mn software engineers

80%+
report chronic pain, fatigue, sleep disorder

Over 50%
have abnormal BMI, stress, vitamin & infertility

Nearly 40%
unaware of early signs of chronic conditions

We solve this via..

Expert led **Habits** & Lifestyle **Coaching**

Diagnostics & Intelligent Health Dashboard

Continuous AI Adaptation & **Longevity** Projection

Existing Solutions deliver Fragmented care & Reactive treatments, narrowly solving Isolated goals
