SERAVA

Business Plan

Introducing Serava, a technology-driven recovery lounge tailored for gym-goers, athletes, and fitness enthusiasts across India. Our mission is to offer science-backed, expert-led recovery services at affordable prices, enabling faster recovery and peak performance. We seek to mainstream elite athlete-level recovery treatments, making them accessible to the general fitness community. Our model bridges the gap between clinical recovery and luxury spas, providing a unique blend of performance optimization and affordability.

By Shrey Jain and Krish Jindal

Understanding the Recovery Gap in Fitness

Market Need

With rising fitness enthusiasm, users face fatigue, soreness, and burnout demanding structured recovery. Existing options are either overpriced spas, untrained massage centers, or ineffective home remedies, causing delays in progress and increasing injury risk.

Consumer Insight

Interviews with over 50 serious gym-goers, athletes and daily active individuals reveal a strong desire for reliable, tech-backed recovery solutions which currently remain inaccessible or inadequate in the Indian market.

Opportunity

There is a clear void for a modern, accessible recovery space that delivers measurable results and aligns with the demanding fitness lifestyle in India, addressing performance and health simultaneously.

Serava: The Innovative Solution

Science-Backed Modalities

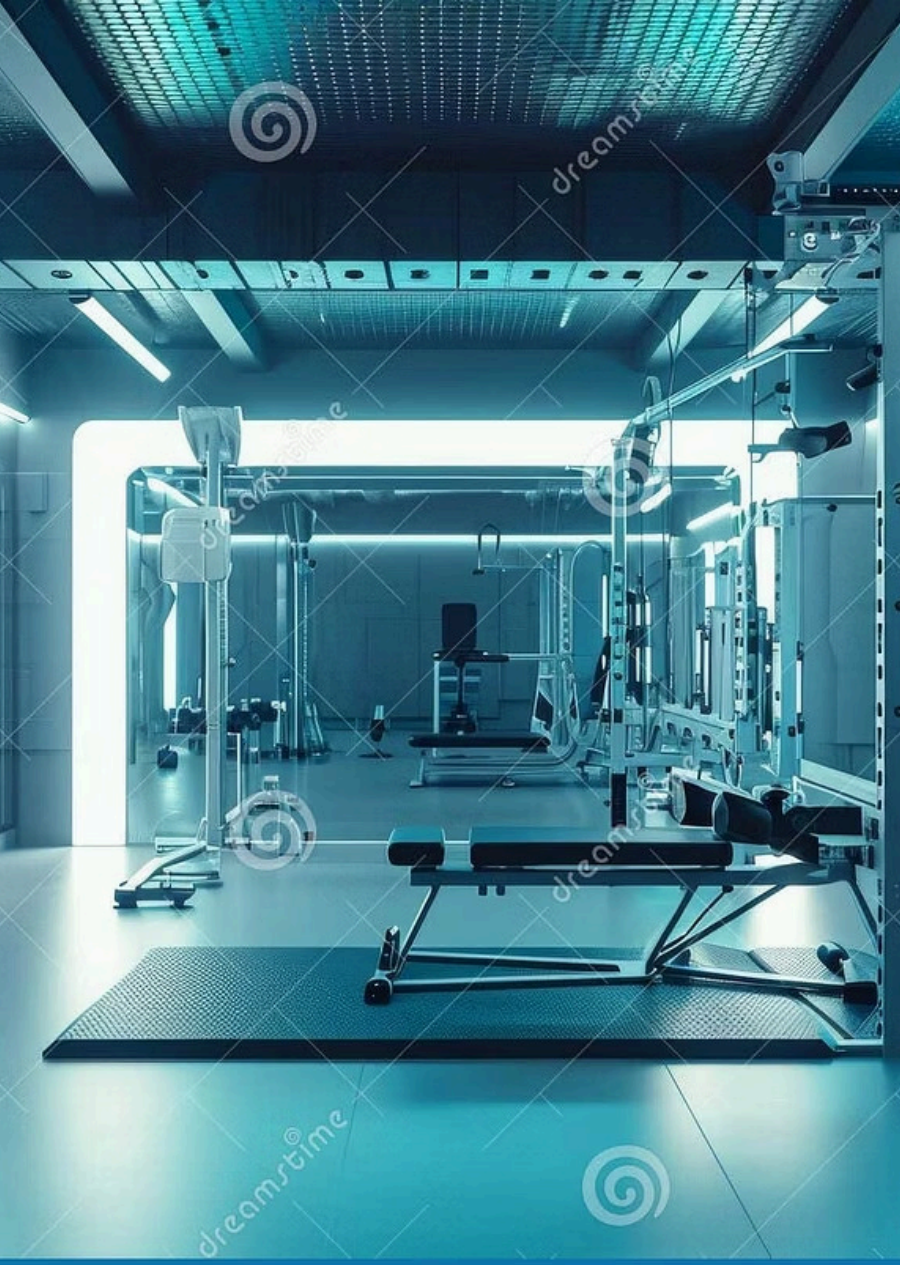
Integration of advanced therapies including red-light therapy, ice baths, compression, and EMS all in one space.

Personalised Tech-Enabled Flow

Each client follows a structured recovery plan guided by smart tools and recovery experts tailored to their workout intensity and needs.

Premium Yet Affordable

A performance recovery zone that combines luxury experience without the high cost, designed for everyday athletes and fitness enthusiasts.



Vision, Mission, and Market Opportunity

Vision

To revolutionize recovery services in India by making elite athlete-level treatments mainstream and affordable for all fitness lovers.

Mission

Deliver expert-led, technology-enhanced recovery experiences. Build India's most trusted recovery brand and expand by setting industry standards city after city.

Market Size

The total addressable market is estimated at Rs 1000 crores+, tapping into gym-goers, athletes, corporates, and school sports programs nationwide.

Input → Impact

USER NEED / CONDITION (INPUT)	SERVICE WE PROVIDE	BENEFIT / OUTCOME (OUTPUT)
🏋️ Post-workout fatigue, soreness	❄️ Ice Bath Therapy+Compression Therapy	🦾 Reduces inflammation, speeds muscle recovery
Muscle stiffness, poor mobility	🪔 Infrared Sauna, ENS/TENS Machine	Deep tissue relaxation, improved flexibility
😌 Work stress, poor sleep	😌 Ice Bath Therapy	Mental clarity, reduced cortisol levels
🧬 Persistent aches (back, knees, neck)	⚕️ Laser Therapy+Compression Therapy	🛠️ Targeted rehab, pain relief, posture correction
🩹 Diabetes, inflammation-related fatigue	🪔 Infrared Sauna + Compression Therapy	🫀 Improved blood circulation, helps manage symptoms
🌙 Menstrual pain, hormonal imbalance	Gentle Heat Therapy + Breathwork	❤️ Pain relief, hormonal relaxation support
💻 Cervical & posture issues	Red Light Therapy+Infrared Sauna + Stretch Protocols	Better posture, neck & spine health
👩‍⚕️ Dull skin, hair issues	🪔 Red Light Therapy + Ice Bath Therapy	✨ Improves skin glow, scalp blood flow

Revenue Model Overview

1 Per-Session Access

Flexibility for walk-ins and occasionals, increasing outreach and trial opportunities.

2 Multi-Session Packs

Value offerings for semi-regular clients, motivating repeated use with attractive pricing.

3 Monthly Memberships

Subscription-based plans to foster loyalty, ensure steady cash flow, and deepen user engagement.

4 Corporate & Institutional Partnerships

Collaborations that embed recovery as a regular part of wellness initiatives, broadening client base.

Strategic Market Entry and Growth Plan

1

Launch Location

Targeting a premium fitness-heavy area in North Delhi with dense gyms and excellent foot traffic.

2

Primary & Secondary Segments

Focusing on gym-goers, CrossFitters, marathons runners, supplemented by office workers and fitness influencers.

3

Pre-Launch Buzz

Building traction via Instagram with inside content, early access programs for fitness communities.

4

Collaborations

Engaging fitness influencers through free trials and giveaways to generate testimonials and amplify reach.

5

Partnerships

Offering add-on recovery plans with referral incentives to gyms and sports academies for wider integration.

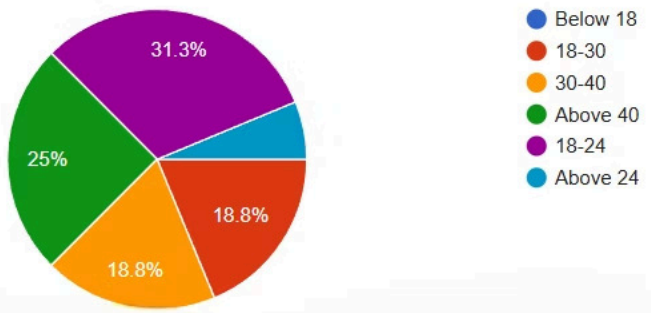
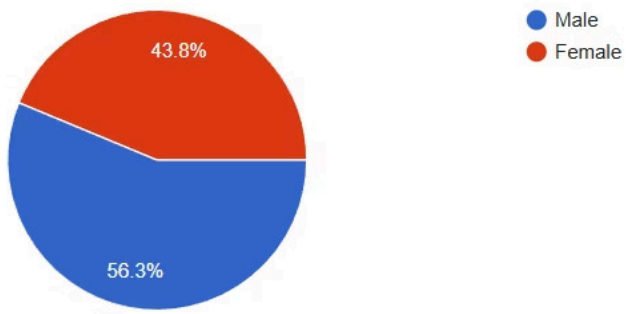
50% are in **physically or mentally taxing** lifestyles (gym, study, corporate work)

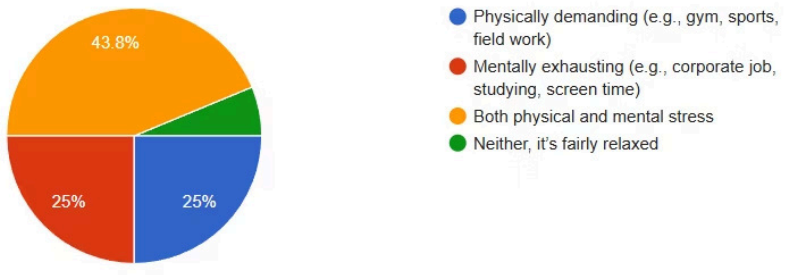
AGE



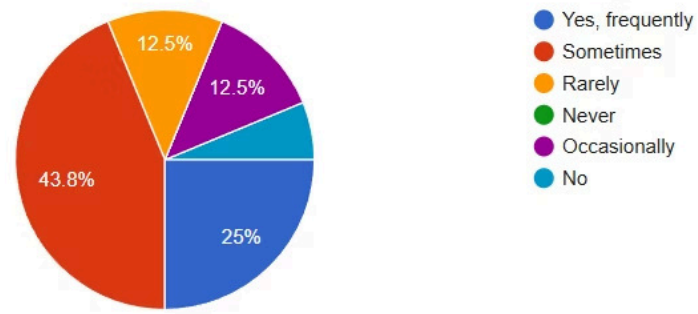
GENDER

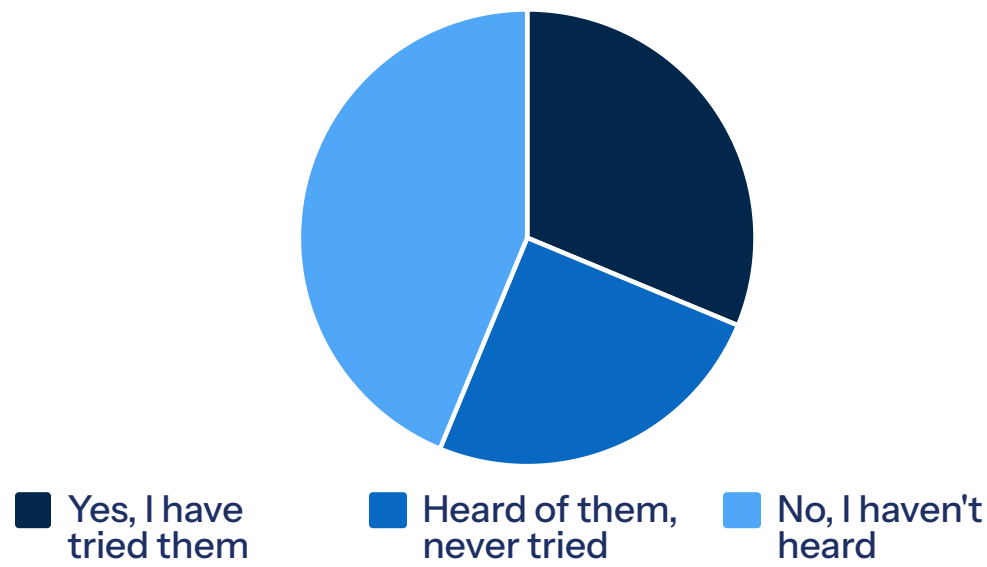


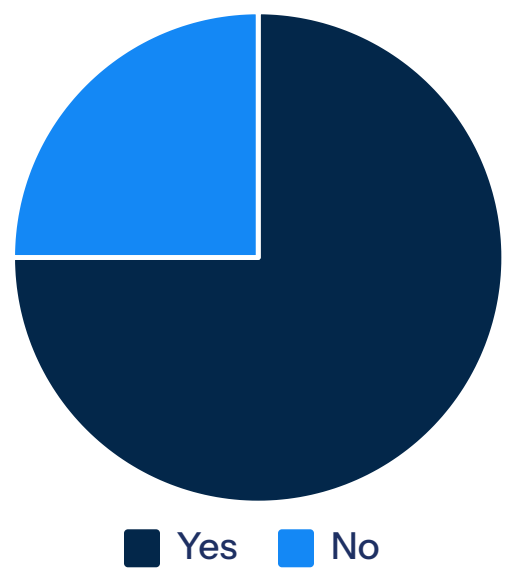
How would you describe your daily routine?



Do you often experience physical tiredness, muscle tightness, or body fatigue?







WHY US AND WHY NOW?

We *are* the user.

Young, driven, fitness-conscious founders solving a problem we've lived ourselves — not outsiders guessing the need.

Built from the ground up.

We've talked to 50+ users on the ground — our insights are real, raw, and user-backed.

Fitness is booming. Recovery is ignored.

India's fitness spend is rising fast, but **recovery remains an unmet need** — a major gap we're first to fill.

We're not building a business. We're building a movement.

With deep passion for innovation, data, and execution — this is about category creation, not just profits.

Brand-first, execution-obsessed.

Our lean, obsessed team is here to build a long-term **brand**, not a short-term hustle — and we're already moving fast.

Funding Request and Capital Allocation

Funding Goal

Seeking seed investment of Rs 40 lakhs for 8% equity to launch Delhi's first tech-enabled recovery lounge focused on wellness and performance.

Infrastructure & Equipment

Includes cost for interior setup, specialized machines such as ice baths, red-light therapy units, and compression technology.

Operational Expenses

Rent and deposits in prime fitness neighborhood plus working capital for staff recruitment, marketing, and technology deployment.

Contingency & Expansion

Allocated funds to manage unforeseen costs and support future growth and scalability plans.

EXPECTATIONS FROM INVESTORS:

Guidance That Grounds Us

Honest, hands-on mentorship to help us make smart decisions and avoid common startup pitfalls.

Sharpening Our Financials

Help in building realistic projections, unit economics, and investor-ready financial models.

Opening Doors

Warm introductions to industry experts, early adopters, and potential investors.

Product & Pitch Feedback

Real, actionable advice to craft something people truly need and explain it clearly.

A Push When We Need It

Regular check-ins and milestone tracking to keep us focused, moving, and accountable.
