smart Cookie

mindful indulgence for the modern consumer

THE PROBLEM

Around the world, rising lifestyle diseases are driving demand for convenient, better-for-you foods made without refined ingredients, dairy, preservatives or additives. But consumers still struggle to find clean, indulgent snacks in the familiar formats they love.

Ingredient label of competitor brands in the category - complex & hard to understand !

CHOCO CHIPS COOKIE

Ingredients: Protein Blend (25%) (High Protein Peanut Flour, Whey Protein Concentrate, Wheat Protein, Soy Protein Concentrate), Compound Chips (16%), (Sugar, Edible Vegetable Fat (Hydrogenated), Cocoa Solids, Dextrose & Emulsifier (INS322(i)-Lecithin of Soya Origin)), Edible Vegetable Oil (Bakery Shortening), Invert Sugar, Millets & Pulses Blend (Wheat Flour, Oats Flour, Quinoa Flour, Bengal Gram Flour, Ragi Flour, Corn Flour Amaranth Puff), Dietary Fiber (Fructooligosacharide), Condensed Milk, Sugar Powder, Humectant (Glycerine), Tribasic Calcium Phosphate, Cocoa Powder, Leavening Agent Baking Soda), Binding Agent (Gum Acacia, Xanthan Gum), Emulsifier (INS471 INS472e), Salt.

Minimally processed

OUR SOLUTION

Smart Cookie

A functional food experience built for daily life.

We solve the gap between **health, taste and trust** by creating guilt free, nutrient-dense bakery products that are safe for individuals with lifestyle diseases as well as health-conscious consumers.

UNIQUE SELLING PROPOSITION

Focus on whole food ingredients

Our focus ingredients for formulation are millets, oats, nut butters and flours, dates and super seeds

Balanced nutrition profile for a daily snack

Nutrition Profile per serve

Calories:100-250g | Protein 2-10g

Carbs 15-20g

Natural sugars 4-8g

Good fats 5-20g

Relatable product formats

Offered in familiar formats like cookies and bakery products, making healthy eating more approachable and easier for consumers to adopt.

Transparency of content

Front labelled packs allowing consumers easy understanding of the product in terms of ingredients and calorific values

Fits modern health needs

Designed for gluten-sensitive, diabetic, vegan and clean-eating consumers, without being diet food.

B2B supplies to a coffee company , located in Inmobi Technologies.Regular supplies for 6+ months and on going.
Organic customer flow. 100+.
Market place onboarding- Amazon(in process) & Vegan Dukan (July 25)

COMMERCIAL STAGE

1. Channel Scale (Primary Focus)

A) E-commerce (D2C + Amazon)

- Scale performance marketing & retention loops
- 12–15 core SKUs optimised for online
- **Build consistent ₹30–40L/month online revenue**

B) Quick Commerce (Blinkit / Instamart / Zepto)

- Drive velocity to 100–150 orders/day across 2 cities
- Deploy smaller, faster-moving packs
- **Target ₹30–35L/month from Q-commerce**

C) Select General Trade
(only premium stores)

- 30–50 outlets for visibility + trial
- Not distribution-heavy, only velocity-focused

2. Operational Foundations

- Start shelf-stability R&D (moisture control, packaging improvements)
- Audit production bottlenecks
- Pilot manufacturing system Improvements with potential partners
- Document SOPs for scale (batching, QC, consistency)
- Implement basic forecasting + inventory optimisation

3. Year 1 Outcome

₹1 crore/month run rate with strong velocity across e-commerce & quick commerce, backed by the first phase of shelf-life improvement & manufacturing readiness.

4. Year 2-5

Smart Cookie scales from $1.4M to $8.4M in revenue through a balanced channel mix across Amazon, D2C, Q-commerce and GT. With improved CAC efficiency, strong brand pull, and manufacturing optimisation, margins strengthen each year. By Year 5, the brand is an established clean-label player with nationwide presence — operationally strong, financially healthy, and strategically positioned for acquisition.

PROJECTIONS

- 100% organic growth to date — ₹0 spent on marketing
- 60–70% of current revenue from B2B supply channels
- ₹800 AOV on D2C orders (category average: ₹400–₹550)
- 65% gross margins driven by clean-label premium positioning
- EBITDA-positive from Year 2 onward
- ₹180k USD raised enables scale across Amazon, Q-commerce & GT
- Clear path to $10-12 Mn revenue by Year 6
- Capital-efficient model generating ₹40 Cr+ cumulative cash by Year 6

Founder Story

"I started Smart Cookie after years of making traditional desserts with unhealthy ingredients. As consumption of sweet treats has moved from once in a while indulgences to daily or bi weekly frequency, I realised we needed cleaner, adaptable solutions across age groups that don't take the joy out of eating.

Smart Cookie was created to make everyday indulgence safe and enjoyable for all."

BRAND TESTIMONIAL

Kavita Cariappa

"“ I've been on a gluten-free diet for a while, and finding cookies that aren't dry or lacking in flavor has been a real challenge. I was pleasantly surprised by Smart Food cookies. They're moist, flavorful, and deliver on their promise of a great taste. The packaging is well done, keeping the cookies fresh. It's rare to find gluten-free options that check all the boxes, but these cookies do just that. They’ve quickly become my go-to snack! “

Sanjana- yoga instructor

“Amazing guilt-free dessert shop! Delicious treats made with healthy ingredients and beautifully packaged. Perfect for indulging without the guilt—highly recommended!!”

Atharv Ijadav

“The chocolate banana cookies are a must-have! Extremely good quality and healthy too.”

Kounal Sose

“I have been ordering from Smart Cookies for a while and I have always enjoyed everything. The range of products available is varied and consistent as well. The gluten free vegan brownies are my fav!”
