BENOTIA

WHERE PERSONALISED SKINCARE MEETS THE FUTURE

PROBLEM

Fragmented Skincare Journeys

70% of consumers purchase generic skincare products without any personalized skin analysis.

Access Barrier For Many

Over 60% of people in small cities and towns lack access to certified dermatologists and expert guidance.

Lack of Personalization

Nearly 80% of users are unaware of their actual skin type and how it responds to different ingredients or products.

SOLUTION

AI-Powered Skin Analysis: Instantly generate a comprehensive skin health report using advanced AI scanning

Virtual Dermatologist Consultations: Connect with top dermatologists online expert advice, anytime, anywhere

Personalized Treatment Plans: Receive a customized blend of clinically validated products and expert medical guidance tailored to your skin's needs.

Progress Tracking & Follow-Ups: Monitor treatment results through periodic AI scans, with automated follow-up calls and reminders to stay on track.

Skin-Focused Nutrition Guidance: Access personalized diet plans created by leading dietitians and nutritionists, designed to enhance your skin health from within.

VISION & MISSION

Our Vision

To become India's most trusted personalized skincare brand by blending artificial intelligence with expert care. We envision a future where every individual can access affordable, science-driven, and highly effective skincare tailored to their unique skin needs and lifestyle—regardless of location or background.

Our Mission

At Benotia, our mission is to empower individuals across India to take control of their skin health through smart technology and holistic wellness. We combine AI-powered diagnostics, dermatologist access, and personalized product systems to deliver visible, long-lasting results. Our goal is to make premium skincare inclusive, evidence-based, and deeply rooted in the diverse needs of Indian skin.

MARKET OPPORTUNITY

1. **Exploding Skincare Market**
   - Indian skincare industry is projected to grow from $11.2B in 2024 to $28.7B by 2030 at a 17% CAGR.
2. **Underserved Demographics**
   - Over 65 million Indians suffer from acne and hyperpigmentation.
   - Current products are generic, ineffective, or inaccessible.
3. **Digital Skincare Boom**
   - 45% growth in online skincare consumption in Tier 2/3 cities.
   - Benotia's mobile-first approach meets users where they are.
4. **Consumer Shift to Personalization**
   - High demand for custom, AI-backed routines.
   - Indian users increasingly value efficacy over brand legacy.
